The opportunity

This is an opportunity to grow your career with a market-leading multi-national project management consultancy.

Our values are integrity, safety first, client focus, and creating opportunities for our people. These values underpin everything we do and is what provides our opportunities to grow, develop and progress within a world-class organisation.

We are an employer of choice, seeking the best people in their field, who deserve the best employer to support their career.

Project: Mace is providing PMC services for a station redevelopment project in Mumbai.

Your responsibilities will include:

- Developing detailed designs for bridges, culverts, overpasses, underpasses, and other road-related structures, ensuring compliance with relevant codes, safety regulations.
- Conducting feasibility studies, site investigations, and surveys to assess the suitability of proposed locations for infrastructure development.
- Creating project plans, including budgets, timelines, and resource allocation, and ensuring adherence to project milestones.
- Collaborating with architects, structural engineers, and other professionals to integrate bridge and road designs into the overall railway project.
- Coordinating with contractors, subcontractors, and suppliers to ensure timely and cost-effective delivery of materials and construction activities.
- Conducting regular site visits to monitor construction progress, verify compliance with design specifications, and address any technical issues that may arise.
- Reviewing and approving construction drawings, technical specifications, and quality assurance plans.
