About the job

Thornton Tomasetti applies engineering and scientific principles to solve the world's challenges. An independent organization of creative thinkers and innovative doers collaborating from offices worldwide, our mission is to bring our clients' ideas to life and, in the process, lay

the groundwork for a better, more resilient future. We provide support and opportunities to our employees to achieve their full potential and cultivate a rewarding career.

Our **Forensic** practice investigate problems in the built environment and provide evidence-based solutions founded on rigorous science and physics. We assist attorneys, property managers, building owners, contractors, manufacturers and design professionals with a wide range of engineering and architectural issues.

The Role

We have an immediate opportunity for a Senior Engineer with interests in structural forensic investigation, litigation support, risk loss consulting, structural repair, and retrofit design. This individual will be expected to execute structural investigations of existing buildings and to design remedial repairs for deficient conditions. The investigations include failure cause and origin analysis, life cycle cost and feasibility analyses, risk loss insurance and claims response, and litigation support. The candidate will be required to provide direction to, and review the work product of, junior level staff, coordinate with other project managers on interdisciplinary efforts, support marketing efforts, and develop and maintain client relationships.

Responsibilities

- Assist with damage assessment and cause and origin investigations.
- Prepare field notes, feasibility studies, cost analyses, and specifications.
- Communicate with clients to understand project requirements.
- Complete technical and investigative reports to support forensic findings and prepare materials related to presentations.
- Manage and mentor other design team members.
- Perform peer reviews and condition assessments, including order of magnitude cost estimating.

Qualifications

- Degree (Master's preferred) in structural engineering or related field
- Professional Engineer and/or SE License required.
- Ability and willingness to travel within the US and internationally
- Proficient in AutoCAD, experience with Revit a plus.

Thornton Tomasetti is proud to be an equal employment workplace. Individuals seeking employment at Thornton Tomasetti are considered without regards to age, ancestry, color, gender (including pregnancy, childbirth, or related medical conditions), gender identity or expression, genetic information, marital status, medical condition, mental or physical disability, national origin, protected family care or

medical leave status, race, religion (including beliefs and practices or the absence thereof), sexual orientation, military or veteran status, or any other characteristic protected by federal, state, or local laws.
